People to People International

Dr. Harley Balzer
Georgetown University

Dr. Blair Ruble
The Kennan Institute

Susan Eisenhower
Eisenhower Group, Inc.

Priscilla Roosevelt
Author, Independent Researcher

Amb. Donald Bandler
The Atlantic Council of the U.S.

Project Zebra is a monumental book revealing the courageous collaboration between Soviets and Americans that spanned continents in order to defeat the Nazis.

This unknown heroic memoir in US-Soviet relations serves as a historic signpost of what are the stakes of war and the hidden efforts toward that victory which are amazingly revealed by M.G. Crisci.

His historic research, like peeling an onion enlightens us, chapter after chapter about the bonds that airmen forge that takes them forward in their missions of glory. Once again, Crisci triumphs in revealing the real aces of World War II.

Dr. Gerald J. Janco
Founder, President
